Savon Dugger

Phone: 315-898-3415 Email: savondugger@gmail.com Chicago, IL

SUMMARY

IT & Management student and Full-Stack Developer with experience building scalable, data-driven web applications and REST APIs using Python, JavaScript, and SQL. Experienced working on projects involving secure system design, geospatial data processing, and healthcare-focused applications. Seeking a software engineering or full-stack development internship where I can contribute to building reliable and scalable solutions.

EDUCATION

Illinois Institute of Technology – **B.S. Information Tech & Management** | GPA 3.6

EXPERIENCE

Cybersecurity Intern | *Skyline Innovation* – *Chicago, IL* *Oct 2025—Dec 2025*

- Supported cybersecurity and data privacy strategy for healthcare-focused application systems
- Implemented encryption mechanisms for protecting sensitive healthcare data in transit and at rest.
- Contributed to HIPAA compliance considerations for patient-clinician interaction platforms
- Worked in collaboration with technical and non-technical stakeholders on system security requirements and implementation planning

Frontend Development Intern | *Iconic Results* – *Chicago, IL* *Sept 2024—Dec 2024*

- Developed responsive user-facing web components using **HTML**, **CSS**, and **JavaScript**
- Translated UI/UX wireframes into functional and accessible frontend layouts
- Improved cross-browser compatibility and ensured consistent UI behavior across platforms
- Debugged frontend issues and optimized user experience across multiple pages

PROJECTS

Student Task Management System *April 2026*

- Developed a full-stack student task management system utilizing React.js, Node.js, and MySQL to help users organize assignments, track deadlines, and improve productivity.
- Implemented CRUD functionality and database integration to enable task creation, updates, deletion, and persistent storage while enhancing overall workflow efficiency.

Grasaia Studios Web App *Feb 2025—Present*

- Designed and implemented a full-stack Vue.js application utilizing REST APIs and database integration to support business operations and user interactions.
- Designed responsive UI components and implemented backend functionality for dynamic data processing, API integration, and scalable application features.

Chatbot *May 2024—June 2024*

- Developed Discord-integrated conversational chatbot utilizing the OpenAI API to generate real-time responses through prompt engineering and API integration.
- Integrated into user-based platform (Discord) for interactive use

Activities

Scarlet Hacks Hackathon *April 2026*

- Developed a healthcare accessibility web application that utilizes geospatial data to visualize healthcare coverage and identify nearby hospitals in underserved communities.
- Implemented interactive mapping functionality and data visualization features to provide users with location-based healthcare insights.

SKILLS

Languages: Python, JavaScript, Java, Typescript, SQL | **Frontend:** React.js, Vue.js, Next.js, HTML5, CSS3| **Backend:** Node.js, Fast API, Rest API, Express.js | **Databases**: MySQL, PostgreSQL, MongoDB, PostGIS | **AI & LLM Tech:** LLM integration, OpenAI API, Google AI studio, Gemini, Ollama, Prompt Engineering | **Tools/Platforms:** GitHub, Git, Docker, Linux, Wordpress
